

A Day's Adventure in Math Wonderland (Paperback)

By Jin Akiyama, Mari-Jo P. Ruiz

World Scientific Publishing Co Pte Ltd, Singapore, 2008.
Paperback. Book Condition: New. 238 x 156 mm. Language: English . Brand New Book. Math Wonderland is a museum of interactive mathematical models in Hokkaido, Japan, founded by one of the authors, Jin Akiyama, in 2003. The models in Wonderland, many of which have been exhibited all over Japan and in cities around the world, are meant to help children and young adults discover and experience the wonders of mathematics. This book is centered around the experiences of three fictional middle-school students during a visit to Wonderland. They spend a day in Wonderland, handling the interactive models and participating in the activities offered there. At the end of the day, they leave with a genuine appreciation of mathematics gained from witnessing its beauty, applicability and inevitability. This book is an important contribution to the genre because it presents mathematics and models that have never before appeared in books in the same category: reversible solids, plane tiling with developments of tetrahedrons, and double-packable solids, which are derived from the authors own research papers published in mathematics journals. It is designed to entertain, inform and even teach some mathematics. Although it is targeted at young...

Totally one of the better pdf I have at any time read through. It really is simplified but shocks within the 50 % from the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
