paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub Date: Unknown Pages: 247 Publisher: Beijing University of Aeronautics and Astronautics Press List Price: 36.00 yuan Author: Wu Ye Qing ed Publisher: Beijing Aerospace University Press ISBN: 9.787.512.408.227 Yema: 247 Edition: 1 Binding: Paperback embedded system design: 16 Published :2012 -7-1 printing time: the number of words: 371000 commodities identification: 22821773 Description Series blog : Embedded system reliability design techniques and case analysis . which where the most potential reliability hazards. as well as how to design prevention. The contents include: the reliability of the basic knowledge and methods of the stress state differences in the boot process and steady-state operation; the Derating parameters and derating factor selection method; fan and heat sink quantitative selection and testing methods. structure and circuit thermal design specification; wiring of PCB board layout. the system structure of electromagnetic compatibility measures; factors of failure in the electronic product manufacturing process (including EOS. ESD. MSD) prevention. testing methods; the maintainability design specifications. availability. design specifications. security design specifications. interface software reliability design specifications and other aspects of the technical content. Meanwhile. for related content actual case studies to enable readers to better grasp this knowledge. Series blog : reliability of embedded systems design techniques and case resolution applies to traffic control. power electronics. consumer electronics. medical electronics. control electronics. military products. such as electronics. mechatronics related technologies as the main content field. both as a technical reference book for engineers and technicians. but also as a professional advanced undergraduates. graduate students. teachers design reference. About the Author Wu Ye Qing. Master of Engineering. Reddy Aviation Science and Technology (Beijing) Co. Ltd. Technical Director. to focus on the reliability of electronic systems design...
