Insects on Display: A Guide to Mounting Displaying Insects

By Connie Zakowski

Rainbow Books. Paperback. Book Condition: New. Paperback. 71 pages. Dimensions: 8.3in. x 5.3in. x 0.2in. Insects On Display is a family craft how-to book and a book for crafters who like careful hand work. Described and illustrated are the steps necessary to create beautiful displays (case and dome) using real (but dead) insects and craft supplies. Even the most squeamish family members can be involved in this instructive hobby. And it's the perfect next step to help children display the specimens they captured and cared for. This book is the companion to The Insect Book: A Basic Guide to the Collection and Care of Common Insects for Young Children (ISBN 1-56825-037-1). Insects On Display will teach you how to 1 identify insect body parts (to help you follow the mounting instructions), 2 mount butterflies and moths (meaning to arrange them for presentation), 3 mount hard-shell insects (like beetles), 4 handle difficult-to-mount insects (like mantids), and 5 display specimens in cases and domes. Skills are highly illustrated, supplies and their sources are listed (including online sources), and it features a glossary, a suggested reading list and an index. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN....

Reviews

Complete guideline! It's this type of great read through. It absolutely was written quite perfectly and helpful. I am very happy to explain how this is basically the best book I actually have read through during my personal life and can be the very best book for at any time.

-- **Joshua Gerhold PhD**

A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. It's been designed in an exceptionally easy way and is particularly merely right after I finished reading this ebook where in fact changed me, change the way I think.
